Fact Sheet

Activate Activated Oxygen Bleach

DESCRIPTION

Activate is an activated oxygen bleach which aids with chemical sanitation. It can be used as a general bleach additive for the main wash or as a soak. With its activated formula, **Activate** can be used at much lower temperatures leading to potential energy savings. **Activate** contains a special additive to reduce fabric damage associated with conventional bleach systems.

FEATURES AND BENEFITS

- **Activated oxygen bleach**
Increases stain removal power at temperatures between 40°C and 70°C.
- **Stabilised bleaching system**
Reduces oxidative fabric damage often associated with conventional bleaching agents.
- **Produces peracetate in the wash**
Increases antibacterial action.
- **Colour safe**
Safe to use on coloured fabrics.
- **Colour coded labelling**
Ensures easy product identification and simplifies training.
