Fact Sheet

Alkalinity Concentrated Laundry Builder

2

DESCRIPTION

Alkalinity is a super concentrated alkaline builder that emulsifies oily soils and prevents redeposition. Its formula provides unsurpassed soil removal. The advanced formula is unaffected by water hardness and delivers exceptional results over a range of wash temperatures.

FEATURES AND BENEFITS

- **Highly concentrated**
Provides excellent economy and leads to fewer drum changeovers.
- **Suitable for use in all water types**
Effective even in hard water conditions.
- **Encapsulated 5L bottle**
Prevents staff coming in contact with neat chemical and eliminates any chance of spills. Connection to the automatic dispenser is very simple and does not involve unscrewing caps or messy drawtubes.
- **Colour coded labelling**
Ensures easy product identification and simplifies training.

DIRECTIONS FOR USE

The alarm sounding on the dispenser signals a bottle requires changing. Press the PRIME button on the handset to silence the alarm. Raise the coupling into the UNLOCKED position. Replace the empty bottle with a new bottle and lower the coupling into the LOCKED position. There is no need to prime the lines as this will automatically occur next time the pump is activated.

For further information contact your Cleantec Representative.

PACKAGING

2x5L

P/C 7706205

APPEARANCE

Alkalinity is a red coloured liquid with a mild odour.
