Fact Sheet

Liquatec

Chlorinated Alkali CIP Detergent

DESCRIPTION

Liquatec is a chlorinated alkali CIP liquid detergent suitable for use in food processing plants.

FEATURES AND BENEFITS

- The low foaming properties of **Liquatec** make it particularly suitable for CIP applications.
- **Liquatec** combines a blend of caustic alkali, surfactants and soil suspending agents which help penetrate soil, stop soil redeposition and dissolve and break up fatty soils.
- The chlorine in **Liquatec** gives it improved performance for the removal of protein from surfaces.

DIRECTIONS FOR USE

Liquatec may be hand or automatically dosed, depending upon the application. Recommended use rate 0.3 to 3% v/v.

See your **Cleantec** Technical Representative for specific recommendations for your application.

For cleaning evisceration tables use **Liquatec** at a concentration between 4 and 6% v/v.

PACKAGING

25 litre drum	P/C 16736
200 litre drum	P/C 7507200
1000 litre bulki box	P/C 25195
