

A Campbell Brothers Limited Business

Fact Sheet

Tropic

DESCRIPTION

Tropic is a blend of natural solvent, surfactants and other detergent components. It is designed to remove grease, oil and carbonaceous soils from concrete, metal and other hard surfaces. **Tropic** is particularly effective on asphaltic soils. **Tropic** releases these soils from the substrate rather than emulsifying them. **Tropic** cleaner performs heavy duty cleaning duties without the use of petrochemical solvents, chlorinated solvents, glycol ethers, harsh acids or highly alkaline compounds. **Tropic** when sprayed onto offal pits greatly reduces malodours and deters fly infestation.

Tropic is a clear, orange liquid with a pleasant citrus odour.

FEATURES AND BENEFITS

- **Low foaming**
A powerful and effective clean is achieved without a high level of foam.
- **Highly concentrated**
Provides excellent economy and leads to fewer drum changeovers.
- **Economical in use**
Economy of product provides excellent in-use cost efficiency.

DIRECTIONS FOR USE

EQUIPMENT

Dilute 1:5 to 1:100 with water.

FLOORS, WALLS, GENERAL, ETC

Dilute 1:100 to 1:200 with water. Heavily soiled areas should be pre-spotted.

STEAM CLEANING

Dilute 1:30 to 1:100

HOT TANK CLEANING

Dilute 1:10 to 1:50

FOAMING

Use recommended foaming equipment – 1:20 to 1:40.

TO REDUCE ODOUR IN OFFAL PITS

Dilute 1:50 with water in either a hand held pump action spray or a fully automated system for larger applications.

PACKAGING

25 litre drum

P/C 24759
