PACER

LAUNDRY

Concentrated Destainer

3

DESCRIPTION

Pacer Laundry is a powerful destainer that is effective on a wide variety of soils. Its performance is unaffected by water hardness and wash temperature and is safe for coloureds and whites. Pacer Laundry has been specially formulated to be non-hazardous, eliminating dangerous chemicals being used in the laundry.

Pacer Laundry is a pale yellow liquid with a mild chlorine odour.

FEATURES AND BENEFITS

- **Concentrated destainer**
Reduces bottle changeovers, eliminates storage problems and assures economy.
- **Advanced formula**
Decolourises stains in white or coloured fabrics. Does not require high temperatures to activate, hence results are more consistent.
- **Colour coded, iconed and numbered**
Product selection is as simple as 1, 2, 3, 4. Staff enjoy using the system and mistakes are avoided.
- **Encapsulated 5L bottle**
Prevents staff coming in contact with neat chemical and eliminates any chance of spills. Connection to the automatic dispenser is very simple and does not involve unscrewing caps or messy drawtubes.

DIRECTIONS FOR USE

The alarm sounding on the dispenser signals a bottle requires changing. Press the PRIME button on the handset to silence the alarm. Raise the coupling into the UNLOCKED position. Replace the empty bottle with a new bottle and lower the coupling into the LOCKED position. There is no need to prime the lines as this will automatically occur next time the pump is activated.

For further information contact your Campbell Cleantec Representative.

PACK SIZE

2 x 5 litre carton P/C 7709205

SAFETY INFORMATION

Carefully read the Material Safety Data Sheet (MSDS) before using this product. For your convenience, MSDS's may be accessed via our web site at www.cleantec.com.au.
