

FACT SHEET

STEELCOAT

Stainless Steel Polish

DESCRIPTION

Specially formulated to protect and enhance stainless steel surfaces. **PACER STEELCOAT** is ideal for use in a range of applications where a high sheen, protective finish is required:

- Sinks
- Benchtops
- Cooktops
- Plastic laminates
- Porcelain
- Wall tiles

STEELCOAT will maintain and preserve stainless steel railings and fittings on marine craft. **STEELCOAT** will not harm fibreglass.

STEELCOAT also provides a protective, glossy coating to outdoor fixtures such as statues, wall plaques, brass or steel fittings, and mailboxes.

FEATURES AND BENEFITS

- Clear, colourless mobile liquid, practically odourless
- Effectively resists finger printing and water spotting
- Surfaces stay looking good longer
- Does not build up with repeated applications
- Enhances life of leather upholstery and surfaces
- Protects stainless steel and other metals from the elements
- Easy to apply, and will not streak on clean, dry surfaces

DIRECTIONS FOR USE

Apply **STEELCOAT** to a dry, lint-free cloth and wipe lightly in the direction of the grain of the surface.

Leave a very light film of polish on the surface, a heavy film will smudge and attract dust. If soil is dried or heavily accumulated, use one of the Pacer range of general purpose cleaners first.

PACK SIZE

2 x 5 litre carton P/C 16500

SAFETY INFORMATION

Carefully read the Material Safety Data Sheet (MSDS) before using this product. For your convenience, MSDS's may be accessed via our web site at www.cleantec.com.au.
