

PRODUCT INFORMATION SHEET

JET CHLOR

Jet Chlor is a clear pale yellow liquid with a chlorine odour. It is used in commercial dishwashing machines to clean and destain crockery.

FEATURES

- Jet Chlor has a high chlorine content. It is effective at destaining crockery even in areas such a coffee shops where strong tea and coffee can leave tannin stains.
- Jet Chlor contains built in descaling agents. These reduce scale build up in hard water areas keeping the machine clean.

HOW TO USE

- Jet Chlor must only be used in commercial dishwashing machines and is automatically injected by a Chesser electronic dispenser.
- The dispenser is set up by Chesser staff to inject the correct amount to give optimum results.
- Simply change over drums when empty. It is advisable to wear safety glasses and chemical resistant gloves when changing drums in case of any splashing.
- Like all chlorinated liquids Jet Chlor will loose chlorine with storage. Always rotate stocks to use oldest product first, and keep stocks to a minimum. Store in a cool place for maximum shelf life.
